

About the SPEEDO® FASTSKIN³

Information for Australian and State Championship Competitors

What is the Speedo FASTSKIN³?

Speedo has announced its world first concept – a cap, goggle and suit engineered to work together as one revolutionary **Racing System**.

Up until now, caps, goggles and swimsuits have been designed separately. But all three elements of Speedo's FASTSKIN³ Racing System have been designed to work together as one to optimise the athlete's comfort and performance in the water.

Has FINA approved the Speedo FASTSKIN³?

From 1 January 2012 it will be FINA approved. If it is worn in any form of competition prior to 1 January 2012, times swum in it will not be eligible for any national and/or international qualifying standard or record. For example, an athlete will not be able to use the time as a qualifying time for the 2012 Australian Swimming Championships.

When can I wear the FASTSKIN³ Racing System to race?

From 1 January 2012. Make sure you check with your State Swimming Association for its rules regarding any meets they hold in the month of December. Swimming Queensland will not allow the FASTSKIN³ to be worn at its State Championships in December. However, if a State does allow an athlete to wear the FASTSKIN³ Racing System pre-January 2012, an athlete **will not** be able to use the time as a qualifying time for the 2012 Australian Swimming Championships or any other Swimming Australia event. It will also not be registered as record of any kind.

What is in the FASTSKIN³ Collection?

The Speedo FASTSKIN³ collection features three levels of technology, each tailored to the needs of swimmers of differing abilities:

- SUPER ELITE for professional athletes
- ELITE for advanced competitors
- PRO for intermediate swimmers.

When and how can I buy FASTSKIN³?

The Speedo FASTSKIN³ Racing System goes on sale exclusively on Speedo.com on 1 December 2011 and will be available at retail stores in Australia from January 2012.

Current stockists of Speedo competition swimwear are:
